

NEWS TRACKER APPLICATION

SPRINT – 1

Team Id : PNT2022TMID04251

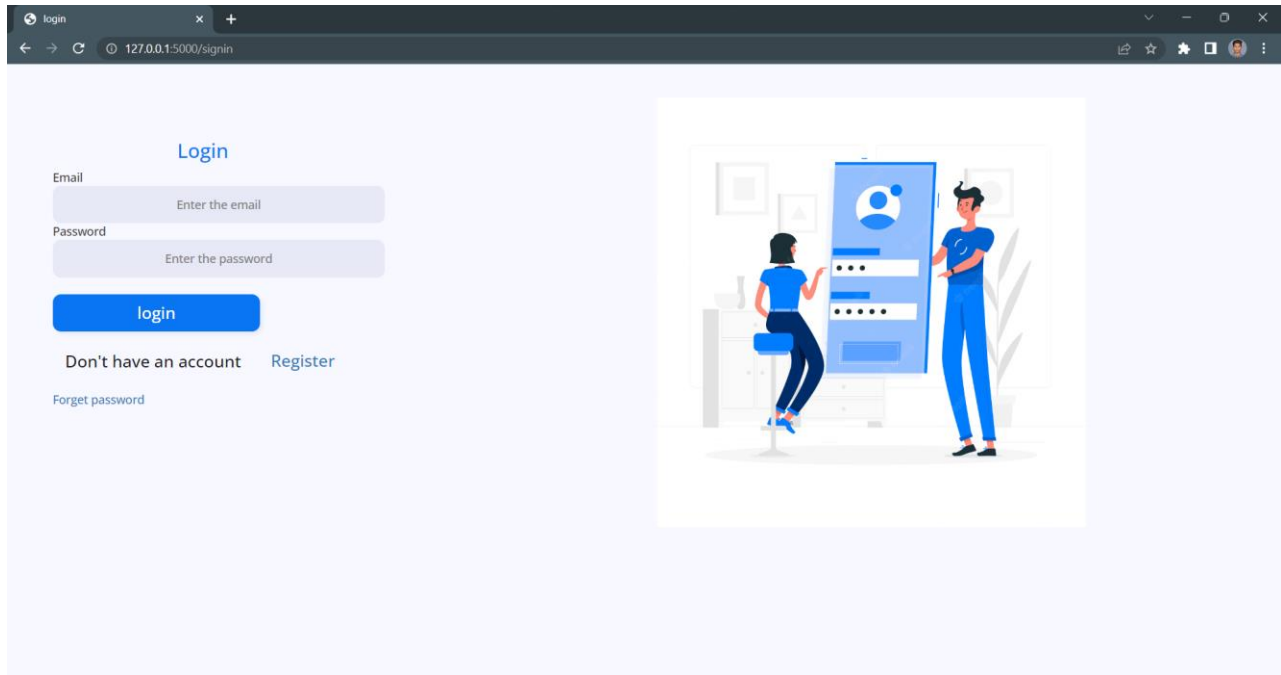

HOME PAGE:

The user can visit the home page first which is connected with NewsApi, and displays the latest news dynamically. It has navigation to the Main app next.

LOGIN AND REGISTRATION PAGE FOR NEWS TRACKER APPLICATION with ibm_db2:

Login:

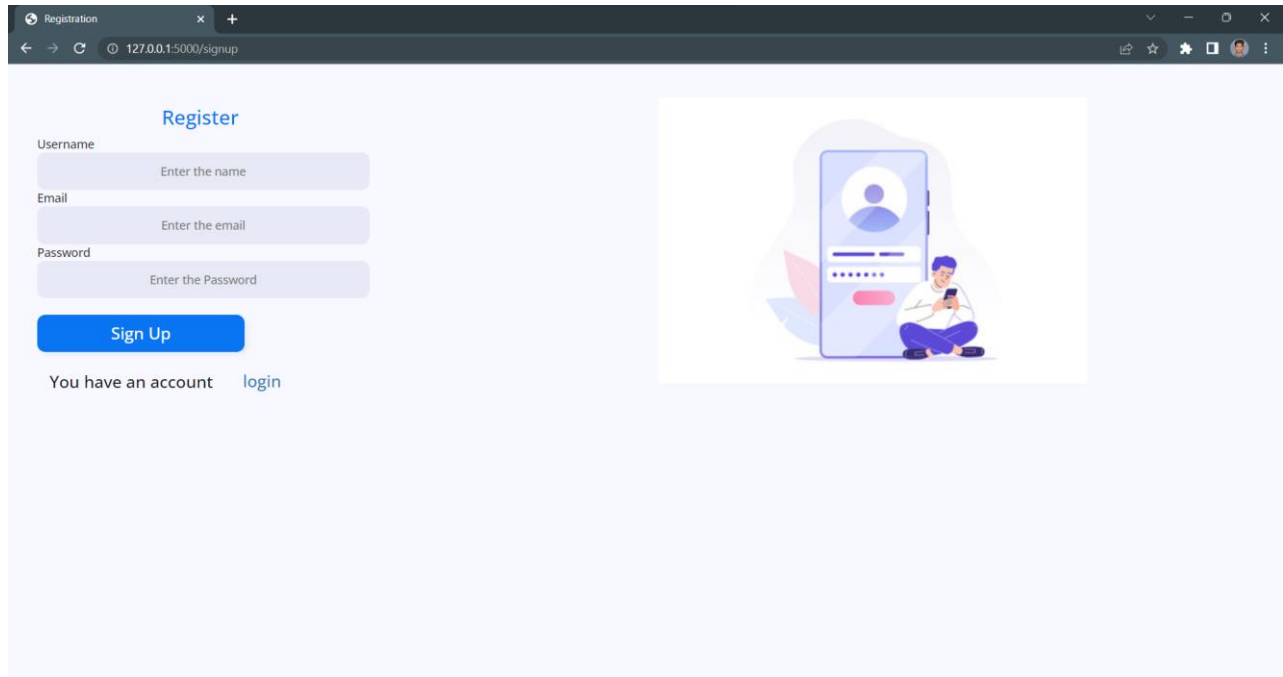

The screenshot shows a web browser window with the address bar displaying "127.0.0.1:5000/signin". The page title is "login". The login form on the left includes the following elements:

- Login** (Section Header)
- Email** (Label) with an input field containing "Enter the email"
- Password** (Label) with an input field containing "Enter the password"
- login** (Button)
- [Don't have an account](#) [Register](#)
- [Forget password](#)

On the right side of the page, there is an illustration of two people (a woman and a man) interacting with a large blue screen displaying a user profile. The woman is sitting on a blue stool, and the man is standing next to her, pointing at the screen. The screen shows a user profile with a blue circle icon and some text.

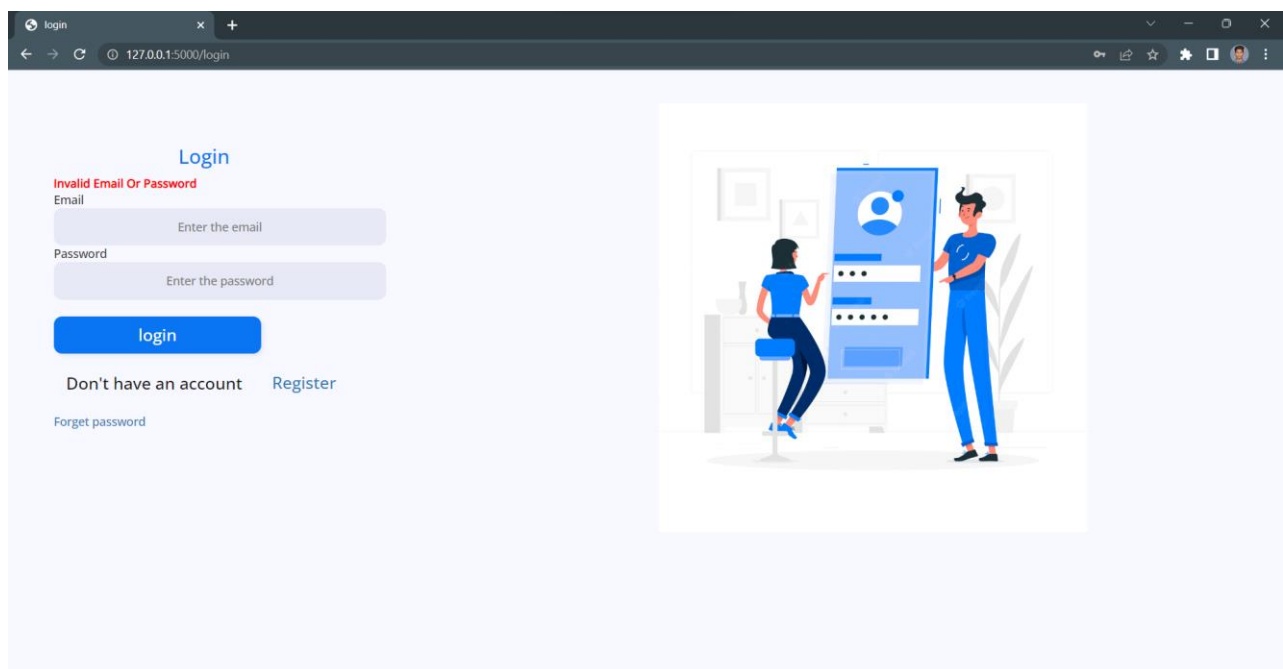

If user already exists, then the notification of message is printed and they can login next for access.

Register:

If user registers successfully, it moves on to the confirmation and the user can login with the mail ID and password

FOR INVALID USERNAME/PASSWORD:

If user provides invalid data (mail and password), "Please enter a valid email" will be shown.

IBM-DB2 DATABASE CONNECTIVITY TO STORE USER DETAILS AND VALIDATION:
